

LETTER OF REFERENCE

On behalf of **MIDONG E&C POLAND Sp. z o.o.** I hereby confirm our good cooperation with **BHProjekt Sp. z o.o.** with headquarters in Długołęka 55-095 at 2 Akacyjowa Street during the implementation of the LG Chem Wrocław Energy investment in Biskupice Podgórne, where an electric car battery plant was built.

The company's tasks during the implementation of the project were:

- ensuring health and safety supervision on the construction site,
- providing administrative assistance, including translation services (PL-ENG),
- outsourcing of physical workers necessary to implement the investment.

This cooperation allows me to recommend the company **BHProjekt Sp. z o.o.** as a very reliable and competent contractor. Due to these factors, **MIDONG E&C POLAND Sp. z o.o.** decided to continue cooperation on another investment: SK Innovation in Dąbrowa Górnicza, where an electric car battery separators plant is being constructed.

We have no hesitancy in recommending the company **BHProjekt Sp. z o.o.** as a reliable business partner.

Best regards,

YOUNG KI PARK
